"I was initially concerned that I was un-insurable, due to certain portions of my medical history. MEG Financial not only found an insurance carrier that could handle my case, they also provided me a great rate on my personal and corporate insurance needs. Michael Gray, and his team, handled the entire process very efficiently and professionally. Since my initial case, I have purchased other services from MEG and would recommend them to anyone."

Subject: Michael Gray, Jr.- Webiste Endorsement

Jeff:

Our company, MEG Financial, Inc. is finishing up the work on a high end life insurance web site. The site will provide detailed information with the ability to generate instant quotes for several types of life insurance. Our web developer has suggested that we obtain testimonials/endorsements from some of our satisfied business owner clients. You immediately came to mind.

Our goal is to get 4-5 endorsements with in the next few days that we can use directly on our site and with potential clients as a way of reinforcing our professionalism and our abilities to deliver top results. Whatever you can provide in this regard would be tremendously appreciated. Please let me know your thoughts regarding this request. You can reach me toll free (877) 583-3955.

Respectfully,

Michael E. Gray, Jr.
